ECON 2000 Survey of Economics (3)

This course provides students a broad survey of the discipline of economics. The emphasis is on the acquisition of a broad conceptual understanding of how academic and professional economists "view" the world. Given the importance of understanding "markets" to both business and public policy, the heaviest emphasis is on how markets function and a smaller emphasis on the business cycle and macroeconomic policy.

ECON 2020 Principles of Microeconomics (3)

Studies institutions and process of market specialization and exchange, pricing and output, competition and monopoly, government regulation, current economic problems and international economic developments.

ECON 2030 Principles of Macroeconomics (3)

Covers economic activity and growth, determination of income, employment, output, inflation, aggregate demand and supply, money and banking, monetary and fiscal policies, and international economic issues.

ECON 3000 Basic Economic Modelling (3)

This course builds on the concepts developed in Survey of Economics. The student is introduced to economic modeling used in both microeconomics and macroeconomics. The purpose of the
