For more information on this dual degree program, please contact [natscim@webster.edu](mailto:natscim@webster.edu).

## Pre-Pharmacy

### BS Biological Sciences (Webster) and Doctor of Pharmacy (University of Health Sciences and Pharmacy) 3+4 Program

Webster University offers a 3+4 program which combines the BS Biological Sciences (90 hours) and the Doctorate of Pharmacy (120 hours). Webster BS Biological Sciences students who have successfully completed the required prerequisite courses and Global Citizenship Program requirements can apply to transition into the University of Health Sciences and Pharmacy.

Students who are selected for the 3+4 program will petition to graduate at the end of their 4th year and obtain a Bachelor of Science in Biological Sciences as the requirements of the 4-year degree will have been satisfied. University of Health Sciences and Pharmacy will accept prerequisite coursework from Webster University. Webster University will accept a reverse transfer of up to 30 credits from University of Health Science and Pharmacy to be applied to upper-level BS Biological Sciences requirements. Webster University will waive the residency requirement for students participating in this 3+4 program.

Please note, 90 hours is the minimum a student would need to complete at the undergraduate level. For example, a student could take 100 hours to complete their prerequisite courses and Global Citizenship Program requirements. In that case, the student would count 20 graduate hours toward their undergraduate degree.

At the current time, the program is open to undergraduate students at the Webster Groves campus.

To take advantage of this 3+4 program, students need to:

- Complete the requirements of the first three years BS Biological Sciences program with a GPA of at least 2.7.

- Complete all the Webster University degree requirements associated the Global Citizenship Program (GCP) requirements prior to entering the University of Health Sciences and Pharmacy.
- Check with the Webster University Financial Aid Office when considering this degree option and prior to applying to the program.
- Apply to University of Health Sciences and Pharmacy by Dec 1 of the year prior to their anticipated fall semester start at UHSP.

Please note, due to the volume of applicants, entry into the University of Health Sciences and Pharmacy is competitive. Consequently, it is possible an applicant will not be accepted into the 3+4 program. However, this should not prevent a student from applying to UHSP following completion of their BS Biological Sciences degree.

For more information on this dual degree program, please contact [natscim@webster.edu](mailto:natscim@webster.edu).
